NEW BUZ-520 ELW*	800	492	400	4.40	105.60	2090X910X830	400

Salient Features

- German Technology
- Stainless Steel (All Four Layers)
- Automatic Flushing/ Cleaning Of System After Every Cycle
- Provision To Add On Crusher/ Additional-machine At Anytime (BUZ- 110 EL Onwards)

New Models

- Higher Production, Same Cost
- Lower Repair & Maintenance Cost

- No Choking Nozzles
- No Pumps/ No gear motors
- Unique Modular Design
- Low Electric & Water Consumption
- Fully Insulated Ice Producing System
- PUF Insulated Stainless Steel Ice Bin
- No Water Indicator

*Optional Combi Cool units: For the first time, both Air and Water cooled for higher ambient with very low water consumption. • Ice output at ambient
 • Weight of Ice cubes to be adjusted according to ambient temp. • If the hardness of level of the drinking water of 200 TDS or more, the use of s

SQ MODELS Dice Shape Ice Cubes

SQ 235	235	234	250	0.90	21.60	1460X760X630	135
SQ 400	400	342	250	1.15	27.60	1635X760X630	175

NEW

Salient Features

- The System Has No Moving Parts
- No Gear Motors
- S.S. Water Tray Can Be Removed To Clean/ Sterilize
- Reliable Electronic Control
- Unique Modular Design
- Low Electric & Water Consumption
- PUF Insulated Stainless Steel Ice Bin
- Space Saving Design

Use for air - cooled units: 10 C thru 38 C ambient temperature • Recommended area of use for combi-cooled units: 10 C thru 45 C ambient temperature
 Production is based on European Standards (10 C Air & 10 C Water) • Production as per Indian Standards 30% Less approx. (32 C Air & 25 C Water)

ZX MODELS Solid Round Ice Cubes

							
Model	Kg/Day	Ice Cubes/Batch	Ltr.	KW	UNITS	HxWxD mm	Kg.
